The beauty and tranquillity of Islamic art is unsurpassed and yet it has rarely been seen in the art galleries which span the cities of many Western countries. Whilst many religions have made use of figural images to convey their core beliefs, Islam has instead used the shapes and sizes of words or letters to form Islamic art.

Historically, Islamic art and calligraphy has inspired many people and is seen today in many magnificent examples in mosques across the world. From the renowned traditional art and calligraphy which makes up the Dome of the Rock Mosque in Jerusalem to the fusing of modern art with Islamic styles, Islamic Art has been a powerful medium of expression across the Muslim world.

Exhibition Islam is working with many of the leading artists from across the Muslim world to showcase the striking and deeply moving pieces of art which have been inspired completely by deep faith in Islam.

Showcasing traditional Islamic art and calligraphy as well as modern styles and combining world famous artists with young and emerging artists, Exhibition Islam has organised eye-catching exhibitions which are now available to many art galleries. As well as displaying traditional canvas work, Exhibition Islam has also exhibited astonishing ceramic and pottery artwork.
The Islamic Art Exhibition displays artwork by amongst others:

Hajji Noor Deen – the world famous Chinese Islamic artist who combines oriental styles with Islamic styles to produce stunning display of art.

Muhammad Ali – the world famous urban artist who combines urban styles with traditional Islamic styles to produce beautiful bold art.

The Asian Gateway – stunning artwork which utilises a massive breadth of styles, both traditional and modern, to produce captivating pieces of art.

This fantastic exhibition combines:

Spectacular artwork and Arabic calligraphy.
